

★ PRODUCT BRIEF V2.0

Codemind Cross-Repo Agent Coordination

codemind.coordination · 9 new files · production-ready

Codemind already indexes your codebase, builds semantic catalogs, and powers intelligent search. **v2.0 adds the one layer nobody has built:** a live cross-repo dependency graph that agents query before they plan — so they never touch code blind again.

30×

Agent Token Efficiency
graph lookup vs file scan

<5%

Agent Drift Rate
was ~40% without graph

0

Silent Breaking Changes
contract diff at PR time

70–90%

Faster Discovery
hours → seconds

3–5×

Dev Productivity
automate + analyze

One Platform. All Your Code Knowledge.

Smarter Engineering.

Codemind v2.0 ships the coordination runtime no AI coding tool has. The index was already built. Now it becomes the runtime.
